PROFESSIONAL SUMMARY

Computer Science student with experience in full-stack web development, building and maintaining web applications using React, Node.js, Java, and WordPress. Skilled in developing responsive user interfaces, integrating APIs, and managing backend systems with databases. Passionate about creating scalable, efficient, and user-focused web solutions through modern technologies.

EDUCATION

Dr. D. Y. Patil School of Science and Technology **May 2027**
BTech, Computer Science and Design *Pune*
- **GPA: 1st year:** 9.1/10
  2nd Year: 9.45/10

Experience

Full Stack Development Intern
DevAcademix — Remote
Sep 2025 – Nov 2025

- Developed and improved frontend and backend components for web applications using modern web technologies.
- Collaborated with developers to design and deploy scalable web solutions and integrate APIs.
- Contributed to UI/UX improvements, enhancing usability and overall user experience.
- Assisted in database management, testing, and hosting workflows during project development.

Web Developer (WordPress) Intern
HiddenIdol — Remote
2025 (4 months)

- Maintained and updated a live WordPress website, ensuring performance, responsiveness, and cross-browser compatibility.
- Customized themes and implemented UI improvements using HTML, CSS, JavaScript, and PHP.
- Handled bug fixes, content updates, and performance optimizations for improved user experience.

Projects

AI-Powered Satellite Tracking Dashboard (Sat-LM) Github
(React, Vite, Node.js, Express, satellite.js, Ollama, TailwindCSS)

- Built a full-stack platform that visualizes real-time satellite using TLE data from Celestrak and a **3D React globe interface**.
- Developed backend APIs to fetch, parse, and cache orbital data with periodic updates using Node.js and Express.
- Integrated a **local LLM assistant (Ollama)** that answers satellite queries using grounded satellite data.

E-Commerce Web Application (In Development)
(Java, JSP, Servlets, MySQL, Razorpay API, Maven)

- Developing a full-stack e-commerce platform using **JSP/Servlet architecture with DAO pattern and MySQL database**.
- Implemented **secure payment integration using Razorpay API** to support online transactions.
- Built **role-based authentication system** with separate admin and user dashboards, enabling admin management features.

Skills & Interests

- **Languages**: JavaScript, Python, TypeScript
- **Frontend:** React, HTML5, CSS3, TailwindCSS, Material UI, Framer Motion, Recharts
- **Backend**: Node.js, Express.js
- **Tools**: Git, GitHub, VS Code
- **Deployment**: AWS, Netlify, Vercel
- **Leadership & Management:** Student Council Member; Vice President of Developers Club

Achievements

- Internal Winner – Smart India Hackathon 2025
- Vice President – Developers Club
- Solved 100+ problems on LeetCode (LeetCode)

Certifications

- **Introduction to Generative AI**: Google Cloud, 2025
- **Microsoft Cloud Security Masterclass**: Ernst & Young, Feb 2025
- **TATA Crucible Campus Quiz 2025:** Tata Group, 2025
- **Web Development Fundamentals:** IBM SkillsBuild, Oct, 2024
